As per college notification and following the academic calendar of the department, the mentor-mentee interaction session was held in the Botany department on 1st September 2025 at 12.30 pm. The Botany Major students of 3rd and 5th Semesters and the newly admitted students of 1st Semester assembled in the department. The faculty and non-teaching staff was also present. To start with, the students were briefed about the significance and utility of Mentor-Mentee session by the head of the department. Students were made to put their signature in the attendance sheet. Next, they were supplied with blank paper chits and were asked to write all their problems encompassing academics, emotional, psychological, behavioral, social etc., if any, in the chits without disclosing their identity. The chits were collected in a tray and every chit was opened, read and the problem was addressed by the faculty. In this way, the session was conducted very systematically. The students appreciated the method of interaction, gave a positive feedback and the mentor-mentee session turned out to be a success. Some common issues highlighted by the students were:-

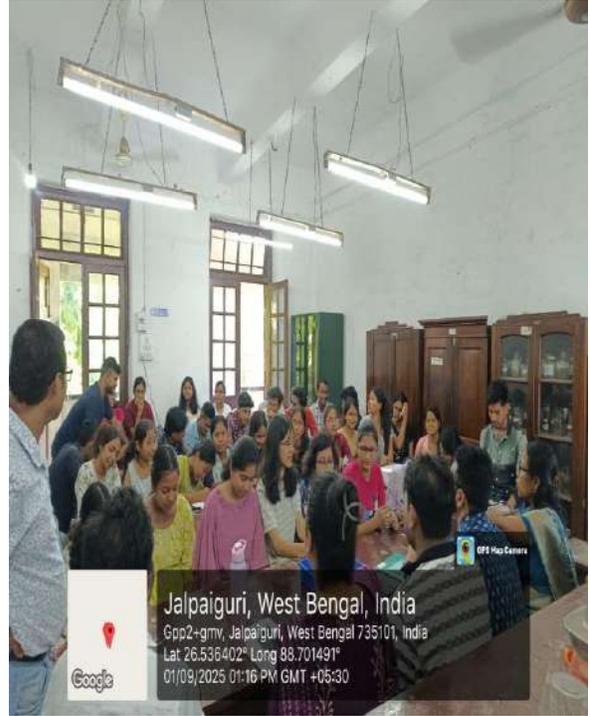

1. If possible, Tiffin break session to be incorporated in the college routine.
2. Toilets needed to be cleaned regularly.
3. Drinking water problem needs to be taken care of.
4. Time management issues, concentration lapses and lack of motivation were the other common issues raised by the students.

The teachers tried their level best to address these problems and make the session effective and fruitful.
